About Spider Platform Hire

At Spider Platform Hire, we are proud to be one of Yorkshire and the Humber's trusted experts in operated spider lift hire. With over a decade of experience in the industry, we specialise in providing tailored access solutions for roofers, local authorities, tree surgeons, and more. Our mission is to deliver exceptional service, reliable equipment, and a seamless experience for every client, no matter the size or complexity of the project.

Safety and efficiency are at the heart of what we do. Our highly trained operators ensure every hire is managed to the highest standards, giving you the confidence to focus on your core tasks while we handle the technicalities. Whether you need to access hard-to-reach rooftops, streetlights, or tree canopies, our spider platforms offer the perfect solution for your needs.

Our Vision

To be the leading provider of innovative access solutions in the UK, empowering industries to reach new heights safely and efficiently.

Our Mission

Our mission is to deliver exceptional operated spider lift hire services through a commitment to safety, reliability, and customer satisfaction. We aim to simplify access challenges for our clients by providing cutting-edge machinery and expert support tailored to their unique needs.

Your point of contact

Professional, experienced, and passionate people.

At Spider Platform Hire, our team consists of professional, experienced, and passionate individuals committed to providing exceptional service. With years of expertise in access solutions, we take pride in supporting clients to tackle even the most demanding projects with confidence and efficiency. Our dedication to safety, precision, and customer satisfaction ensures that every hire is accompanied by expert guidance and a positive approach. Whether you are working on construction, maintenance, or tree care, our knowledgeable team is here to assist you every step of the way.

Dominic Croft

Founder & Owner

Dominic Croft, founder of Spider Platform Hire, is a seasoned professional with years of hands-on experience in access management, tree surgery, and a variety of other industries. His wealth of knowledge has been honed through years of working on the ground, providing tailored solutions to clients with specific needs.

Dom's diverse expertise spans across multiple sectors, including construction, maintenance, and arboriculture, where he has built a solid reputation for providing reliable, efficient, and safe access solutions. With a passion for problem-solving and a keen eye for detail, Dom is dedicated to ensuring that every client gets exactly what they need, no matter the challenge. His comprehensive understanding of the equipment and techniques required for working at height, combined with his customer-focused approach, guarantees that you'll be in capable hands.

How We Work

At Spider Platform Hire, we make accessing challenging areas straightforward and stress-free. Here's how we work:

At Spider Platform Hire, we pride ourselves on providing a seamless and stress-free experience for all our clients. From your initial inquiry to the completion of your project, our team is here to support you every step of the way. We understand that every project is unique, which is why we take the time to understand your specific needs and tailor our services accordingly.

1

Step 1: Consultation

We begin by understanding your project's unique requirements. Whether it's for roofing repairs, tree maintenance, or municipal projects, we'll recommend the best spider lift for the job.

2

Step 2: Operated Hire

All our spider lifts are hired with an experienced operator. Our operators are fully trained to manage the machinery safely and efficiently, saving you time and minimizing risk.

3

Step 3: Setup & Execution

We deliver the equipment directly to your site and handle the setup, ensuring everything is in place for a safe and efficient operation. While our operator manages the platform, you can focus on completing your task with precision and efficiency.

4

Step 4: Project Review

Once the job is done, we promptly dismantle and remove the equipment, leaving your site clean and hassle-free. We'll check-in afterwards for feedback.

Professional, safe and efficient operated platform hire.

Our Sectors

Arborists & Tree Surgeons

SPH supports arborists by providing lightweight and stable platforms that navigate uneven terrain, protect delicate landscapes, and ensure safe access to tree canopies for pruning or removal tasks.

Roofing Contractors

SPH provides quick setup, flexible access, and operated hire solutions that save roofers time and effort compared to scaffolding. Our compact spider lifts help access difficult-to-reach rooftops safely and efficiently.

Local Authorities

Our spider lifts are ideal for maintaining streetlights, bridges, or historic buildings, offering minimal disruption and eco-friendly options for urban and rural projects. Operated hire ensures smooth and safe operations.

Property & Facilities Management

From cleaning gutters to inspecting façades, SPH enables easy access to hard-to-reach areas. Our compact machines can operate indoors or outdoors, minimizing downtime and simplifying maintenance.

Construction & Development

Our spider lifts are perfect for construction sites with limited space, offering quick and efficient access for cladding, glazing, or finishing work. Operated hire ensures safety and reliability on-site.

Land Owners & Site Teams

Our spider lifts are perfect for Land Owners and Site Teams requiring access to elevated areas. Our operated-hire platforms offer quick, safe and efficient access.

Our Machinery

Spider Platform Hire offers a modern fleet of spider lifts, each designed to tackle the most demanding tasks with ease. Our machines are ideal for projects requiring compact yet powerful access solutions. Key features include:

- **Compact Design:** Our spider lifts are designed to fit through narrow access points, such as garden gates making them ideal for confined spaces.
- **Impressive Reach:** With working heights of up to 22 metres, our platforms provide access to high and hard-to-reach areas with ease.
- **Lightweight Build:** The lightweight construction minimises ground impact, making them perfect for delicate surfaces such as lawns, tiles, or paving.
- **Versatile Stabilisation:** Our spider lifts are equipped with advanced stabilisation systems, allowing them to operate safely on uneven terrain.

Each piece of machinery undergoes regular maintenance and rigorous safety checks, ensuring reliability and performance on every job.

20m MEWP

KEY BENEFITS

Compact Design: Easily fits through narrow access points like garden gates.

20m Reach: Ideal for tree work, roof repairs, and maintenance tasks.

Stable on Slopes: Handles uneven ground with advanced stabilisation.

Quick Setup: Faster than scaffolding, saving time.

Operated Hire: Skilled operator included for safe and efficient use.

22m MEWP

KEY BENEFITS

22m Reach: Perfect for high tree work, roofing, and public infrastructure.

Extended Outreach: Reduces the need to reposition.

Compact Footprint: Access tight spaces with ease.

Handles Rough Terrain: Stable on uneven ground.

High Payload: Carries heavier tools and equipment.

Fast Setup: Saves time compared to scaffolding.

Safe & Reliable: Operated hire ensures professional and secure use.

Other machinery available upon request.

Professional, safe and efficient operated platform hire.

The solution to access.

Problems with traditional access methods:

- Slow Setup: Scaffolding takes time to assemble and dismantle.
- Access Issues: Struggles with tight or obstructed areas.
- Surface Damage: Heavy equipment can harm lawns or paving.
- High Costs: Labor-intensive assembly increases expenses.
- Safety Risks: Ladders and unsecured scaffolding are hazardous.
- Disruption: Scaffolding in public areas requires permits and causes delays.
- Inflexible: Static once installed, hard to adjust mid-project.
- Space Problems: Too large for narrow or confined areas.

Spider Platform Hire solutions:

- Fast Setup: Quick deployment saves time.
- Easy Access: Compact design navigates tight spaces.
- Cost-Effective: No need for extra assembly labour.
- Safer: Operated by trained professionals.
- Low Disruption: No permits in public areas.
- Weather-Ready: Stable in mild winds or uneven ground.
- Flexible: Easily repositioned during projects.
- Compact: Fits narrow or confined areas.
- Eco-Friendly: Electric and hybrid models reduce emissions.

What Our Clients Think

Case Overview

Spider Platform Hire partnered with All About Arb to preserve a centuries-old veteran tree in Sprotbrough. As a significant local landmark, the tree required careful maintenance to ensure its health and safety while preserving its historical value. The project presented unique challenges due to its size, location, and delicate condition.

The Challenge

The veteran tree, located in a restricted area with uneven terrain, posed significant access difficulties. Traditional access solutions, such as scaffolding, were not feasible due to time constraints, cost implications, and potential damage to the surrounding environment. Furthermore, the tree's expansive canopy demanded precise and controlled access for maintenance without compromising its structure.

Our Solutions

Spider Platform Hire provided a compact and light-weight spider lift that easily navigated the restricted site and stabilised securely on uneven ground. Our operated hire service ensured the arborists could focus on their work whilst our trained operator managed the platform's precise positioning. With an impressive reach and flexibility, the spider lift allowed the arborists to safely access and prune the canopy, minimising disruption to the tree and surrounding area.

What the client said

"Working on a veteran tree requires precision and care, and Spider Platform Hire delivered exactly what we needed. Their spider lift allowed us to access every part of the canopy efficiently and safely, saving us time and protecting the tree. Dom and his team made the whole process seamless, and their expertise was invaluable."

Nic Hunter
Lead Arborist
All About Arboriculture

A letter from Dom

Dear Valued Partner,

Thank you for taking the time to learn more about Spider Platform Hire. My name is Dom, and I founded this company with a simple vision: to provide reliable, high-quality access solutions that make a real difference to the businesses and professionals we serve. Having worked closely with industries like roofing, tree surgery, and local authorities, I've seen first-hand the challenges that come with tackling difficult-to-reach areas. That's why I've dedicated myself to building a service that not only meets but exceeds your expectations.

I started Spider Platform Hire with a passion for solving problems and a drive to make your work easier, safer, and more efficient. For me, this isn't just about hiring out machinery; it's about creating partnerships based on trust and delivering value at every step. Whether you're managing a public works project, maintaining urban trees, or repairing a historic roof, I want you to know that you can count on us to be there when it matters most.

At Spider Platform Hire, we believe in combining top-of-the-line machinery with outstanding customer service. Every machine in our fleet is meticulously maintained, and our operators are not just skilled but genuinely invested in the success of your projects. When you choose us, you're not just hiring equipment; you're gaining a partner who is as committed to your goals as you are.

Looking ahead, my ambition is to continue growing this company while staying true to the values that set us apart: reliability, innovation, and a personal touch. I'm excited about the possibility of working with you and supporting your projects, big or small. Please don't hesitate to reach out to discuss how we can help.

Thank you for considering Spider Platform Hire. I look forward to the opportunity to work together and help you achieve your goals.

Warm regards,
Dominic Croft

Safety & Compliance

At Spider Platform Hire, safety isn't just a priority—it's the foundation of everything we do. Whether you're working on a construction site, carrying out tree surgery, or performing maintenance at height, you need reliable equipment that meets the highest safety standards. That's why our fleet of spider platforms is fully certified, rigorously maintained, and backed by expert support.

Fully Certified Equipment

We take compliance seriously. Our spider platforms meet all relevant UK safety regulations, including:

- LOLER (Lifting Operations and Lifting Equipment Regulations) – Ensuring all lifting equipment is thoroughly inspected and safe to use.
- PUWER (Provision and Use of Work Equipment Regulations) – Guaranteeing our platforms are suitable and maintained for safe operation.
- Industry-Specific Standards – Compliance with additional regulations for construction, arboriculture, and industrial applications.
 - Operator Training & Support

For businesses that need extra reassurance, we offer:

- Fully trained operators – Available to assist with safe operation.
- On-site familiarisation – Guidance on how to use our machines effectively.
- Health & Safety Advice – Ensuring you understand best practices before hiring.
 - Site Risk Assessments

Choosing the right access solution is essential for site safety. We provide:

- Guidance on terrain & access restrictions – Helping you select a spider platform suitable for confined spaces, soft ground, or uneven surfaces.
- Risk assessment support – Assisting with pre-hire safety checks to ensure compliance.
- Consultation for complex projects – Tailored recommendations for high-risk work environments.

Maintenance & Inspection:

- To maintain our high safety standards, every machine undergoes:
 - Regular servicing & pre-hire inspections – Ensuring optimal performance and safety.
- 24/7 breakdown assistance – Support in the unlikely event of an issue.
 - Strict maintenance schedules – Adhering to manufacturer recommendations and UK safety laws.
 - Emergency Support

When working at height, there's no room for compromise. With Spider Platform Hire, you get equipment that's not only high-performing but also backed by the highest safety standards.

Professional, safe and efficient operated platform hire.

Operated Hire Costs

At Spider Platform Hire, all our spider lifts come with a fully trained operator. This ensures maximum safety, efficiency, and expert handling, allowing you to focus on the job without worrying about the equipment.

What This Means for You

- No Training Required – Our operators handle everything, so you don't need specialist training.
- Safety Guaranteed – We ensure the lift is set up and used correctly to prevent accidents.
- No Risk of Damage – Avoid costly repairs or misoperation—our team knows exactly how to get the job done.
- Faster, More Efficient Work – Our operators maximise productivity, saving you time and hassle.
- Full Insurance & Compliance – No liability concerns—our operators are fully insured and compliant with safety regulations.

Why We Don't Offer Self-Hire

Spider lifts are highly specialised machines that require professional handling. Self-hire can lead to safety risks, increased costs, and potential site damage. Our operated hire service provides complete peace of mind, ensuring the job is done right the first time.
